Services Performed:

Provide care management for older or disabled adults and their families

Care Manager Practice Profile:

Judy has been a Licensed Clinical Social Worker since 2001. Her experience working in hospitals and outpatient clinics has provided her a knowledge base that enables her to navigate health systems and advocate for and educate her clients. Her educational background allows her to see each client from a biopsychosocial perspective, taking into account various aspects of each client's life.

Licenses & Certifications:

Licensed Clinical Social Worker, Board of Behavioral Sciences, State of California Department of Consumer Affairs, License #20772

Professional Memberships:

Ageing Life Care Association, Professional Member

Education:

B.A., Social Ecology, University of California at Irvine, 1991.
Masters in Social Work, University of Southern California, 1996.

Prior Occupational History:

Judy has worked in a variety of settings and with a wide variety of populations. Her background prior to becoming a care manager has focused on providing counseling support, crisis intervention, education, and advocacy to vulnerable populations in medical settings including inpatient hospital wards and outpatient HIV/AIDS clinics.

Proven Skills Brought to Care Management Practice:

- Ability to work as a team with medical professionals, caregiving companies, and other professionals, coordinating and planning a quality care plan for each client
- Experienced based knowledge to be able to take into account the biopsychosocial aspects of each client
- Strong attention to detail and a passion to help others, especially vulnerable populations
- Raised in Mexico, and able to provide bilingual and bicultural services to Spanish speaking populations
